

International Mission Trip

Every other year the Junior and Senior high school students have an opportunity to share God's love on the international mission trip. In 2017, the students traveled to the Bahamas where they spent a week serving a community of Haitian refugees. Our students learned about immigration, discrimination, poverty, international aid and most importantly about the vastness of God's kingdom. Each morning our youth led Vacation Bible School for the 150+ community kids. After lunch and a quick nap, our students did construction and painting projects at the host church, distributed food to families identified by the church and supported community members through prayer.

We anticipate returning to this same community in 2019 and are excited about continuing the relationships built in 2017. Average cost is about \$700 per student, with scholarships and payment plans available. We are thankful for the church's support in this mission experience.
